

Interactive Quiz App

****Welcome to the Interactive Quiz App!****

Thank you for choosing our quiz app to test your knowledge. This document provides detailed instructions on how to use the quiz and explores the special features we've implemented.

Getting Started:

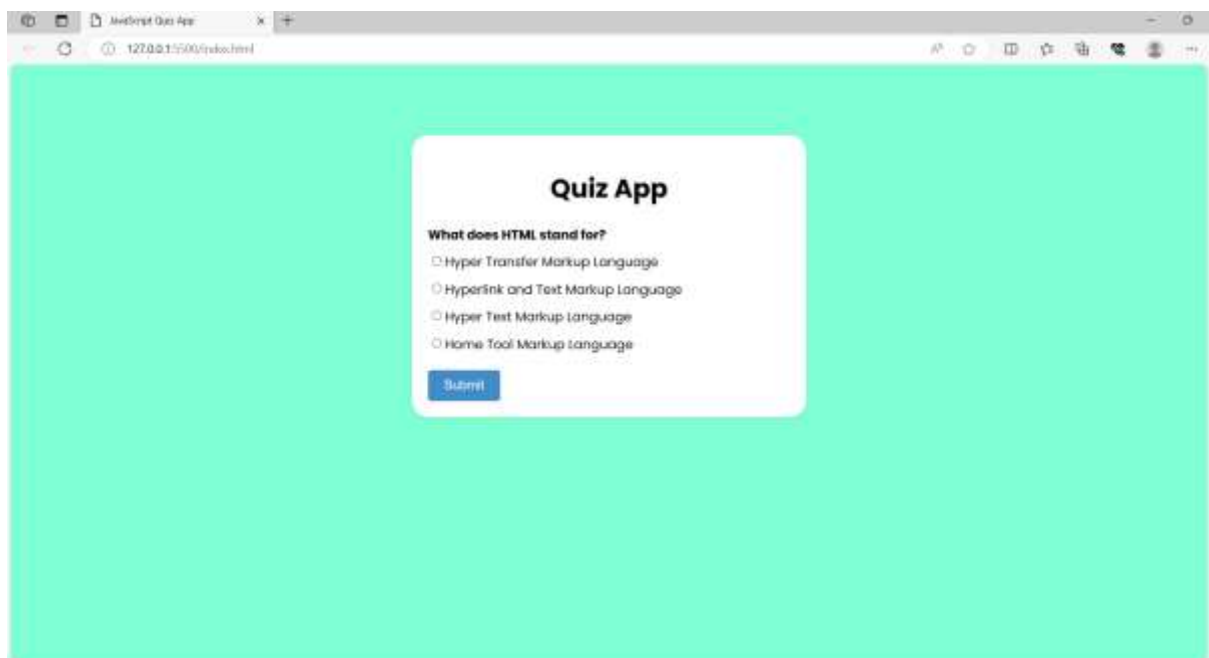

1. ****Clone or Download:****

- Clone the repository from [GitHub Repository Link].

https://github.com/Lalithavanukuri/interactive_quiz/tree/main

2. ****Open the Quiz:****

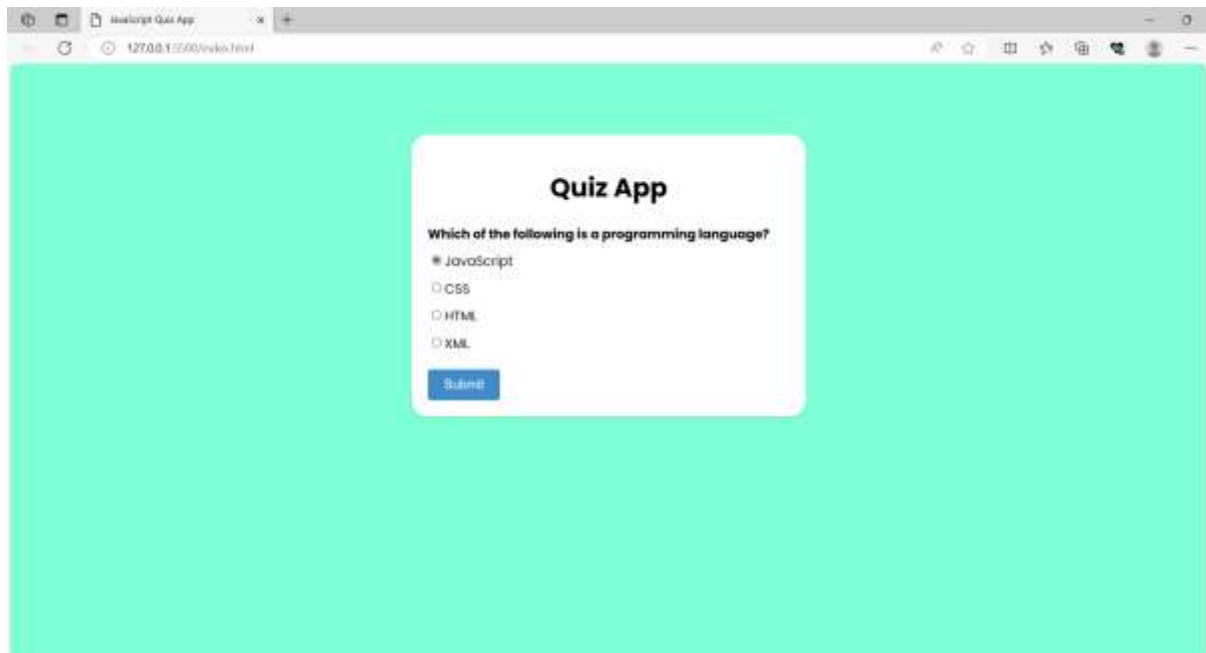

- Navigate to the extracted folder.
- Open the `index.html` file in your web browser (Google Chrome, Firefox, Safari, etc.).

Taking the Quiz:

3. ****Answering Questions:****

- Read each question carefully.
- Select your answer by clicking on the radio button next to the option.

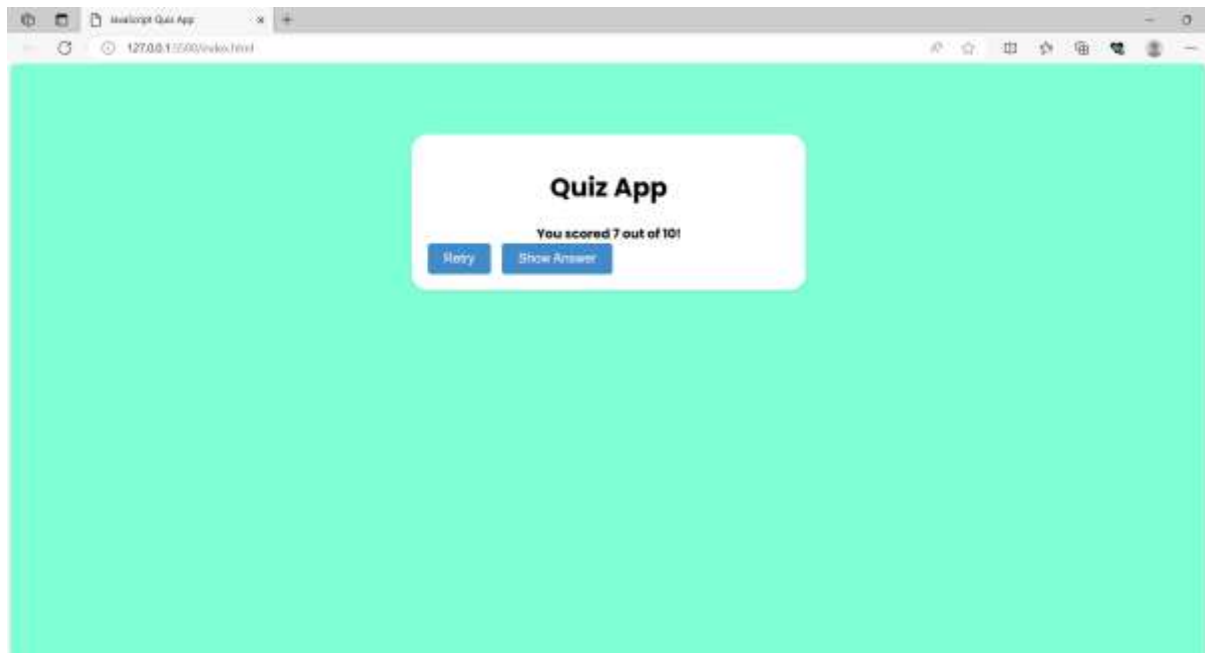

4. ****Submitting Answers:****

- Click the "Submit" button to check your answers.
- Your score will be displayed, and incorrect answers will be highlighted.

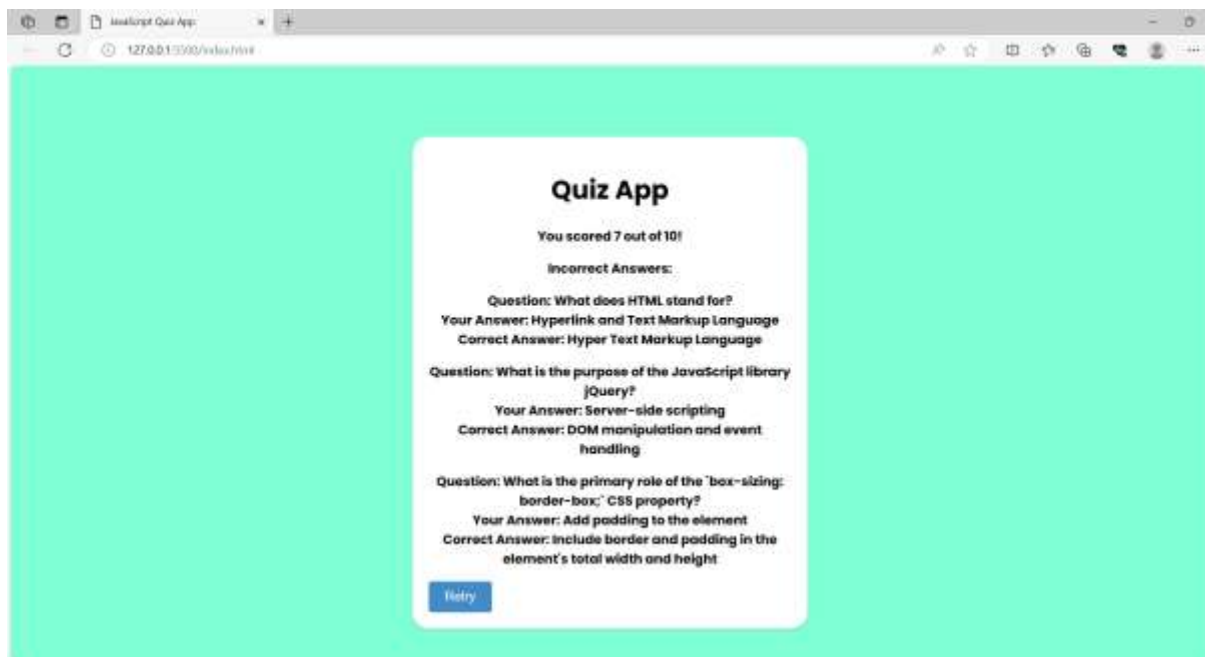

5. ****Retry the Quiz:****

- If you wish to retry the quiz, click the "Retry" button.

6. **View Correct Answers:**

- To review correct answers, click the "Show Answer" button after submitting.

Customization:

7. **Customizing Questions:**

- Feel free to modify or add questions in the `script.js` file.
- Update the `quizData` array with your desired questions, options, and correct answers.

8. ****Styling Changes:****

- Customize the visual appearance by modifying the styles in the `styles.css` file.

Special Features:

9. ****Result Presentation:****

- The quiz displays your score and highlights incorrect answers.
- Unique animations make result presentation engaging.

10. ****Retry Functionality:****

- Clicking "Retry" resets the quiz for another attempt.

11. ****Show Answer Feature:****

- After submitting, click "Show Answer" to view correct answers.
- Enhance your learning by understanding the correct responses.
